LOFAR Epoch of Reionization Key Science Project

- Aim: use LOFAR to find when first galaxies ionized universe

LOFAR Epoch of Reionization Key Science Project

- Aim: use LOFAR to find when first galaxies ionized universe
- Incredibly hard problem
- Subtract rest of universe
- For 10 years: consistently produced best LOFAR images by far

LOFAR Epoch of Reionization Key Science Project team

- Computer scientist turned astronomer
- Electrical Engineer turned astronomer
- Astronomer turned software engineer turned astronomer
- Electrical engineer turned signal processing expert
- Astronomer turned HPC specialist and professional haggler
- Theoretical astronomers / universe simulation experts
- Several PhD students that ended up *everywhere* in industry and academia

LOFAR Epoch of Reionization Key Science Project team

- Computer scientist turned astronomer
- Electrical Engineer turned astronomer
- Astronomer turned software engineer turned astronomer
- Electrical engineer turned signal processing expert
- Astronomer turned HPC specialist and professional haggler
- Theoretical astronomers / universe simulation experts
- Several PhD students that ended up *everywhere* in industry and academia
- Comms engineer turned astronomer turned brain researcher
- A handful “proper” astronomers

M.R. Haas

- Studied galaxy formation at StScl
- Large cosmological simulations
- Looked for interesting galaxies
- I.e.: “different” clusters of dark matter particles

M.R. Haas

- Studied galaxy formation at StScl
- Large cosmological simulations
- Looked for interesting galaxies
- I.e.: “different” clusters of dark matter particles
- Went to insurance company
- Identifies fraud
- I.e: “different” clusters of medical insurance transactions

Figure: *Jasmina Magdalenic, in prep.*

DISTURB

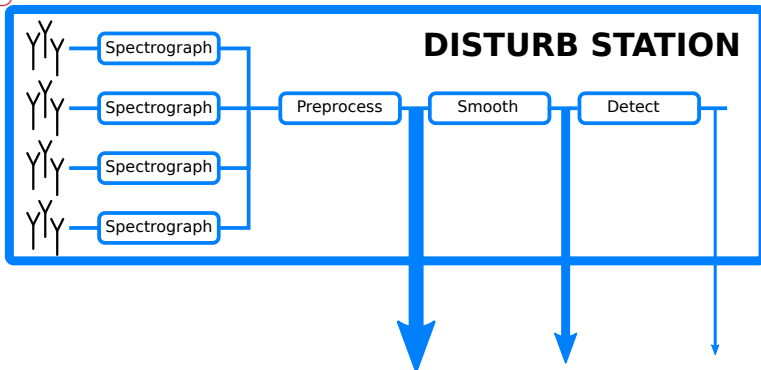

- Disturbance-detection by
- Intelligent
- Solar radio
- Telescope of
- (Un)perturbed
- Radiofrequency
- Bands

Proposal

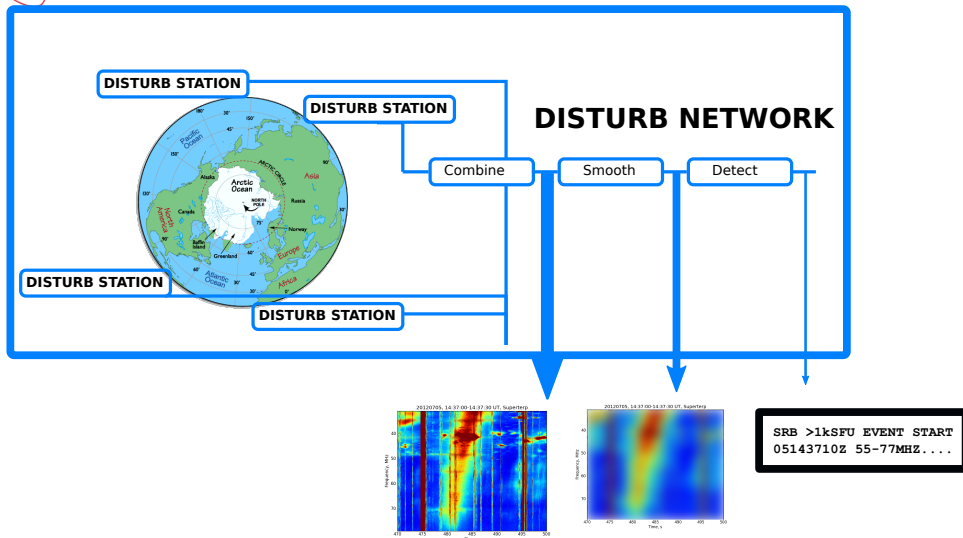

- Defense Technology Project
- Phased array spectrograph
- 10–3000 MHz
- Near-real-time data
- NO FINISHED PRODUCT

Consortium

- S&T (Delft)
- Astron
- KNMI
- Defense “sponsor”: Joint Meteo Group, RNLAf

SRB >1ksFU EVENT START
