Instructions for wifi access:

General information

1. Network key and account details:

   - Networkey: congresos2014
   - Username: Obelics@congreso.ucm.es
   - Password: Obelics2016

2. Requirements in the configuration of user equipment

   It is imperative that the network configuration of the user equipment has:
   - Automatic detection of IP (by DHCP) and DNS
   - No proxy define in the browser

3. **Connection**
   - Choose "UCM-CONGRESO" in the list of available networks
   - Introduce the network key and connect
   - Open your browser with url.
   - When the page of "Red Inalámbrica de congresos UCM" appears fill the form with the data in point 1 above.
   - The account will be valid until one day after the meeting
   - Once the data are introduced, an information page will appear and then you will be redirected to the url introduced.

4. **Available services**

   The following services are available on the netwrok:

   - Web browsing (protocols http y https)
   - VPN (Virtual Private Network) tunneling only toward outside UCM.
   - SSH (Secure SHell)

5. **Aditional information**
   - The zones with wifi coverage can be checked in http://ssii.ucm.es/wifi (maps only available for Internet Explorer)
